	2							

ADDITIONAL SHELTER STATISTICS

2,259 VOLUNTEER HOURS DONATED	261 GOING INTO FOSTER CARE	26 224 X 11	 	6,010 PET LICENSES PROCESSED	90.0% LIVE RELEASE RATE (LRR)	96.6% 80.8%	
7,297 FOSTER CARE HOURS DONATED	99 ANIMALS DIVERTED	64 35 0 0	 	875 CALLS RESPONDED TO BY AN ACO*	675 EXAMS	273 SURGERIES	850 VACCINATIONS

*ACO - Animal Control Officer

DIVERTED - Animals who were able to help keep out of the shelter by providing help and offering resources to the owner. This program is also known as our Pet Retention Program.

HUMANE EUTHANASIA - Our Chief Veterinarian authorizes all euthanasia decisions for medical reasons. Euthanasia for behavior is authorized by shelter managers, supervisors and directors. All euthanasia decisions are made on a case-by-case basis.

TNR ("Trap Neuter Return") and our "Working Whiskers" programs allow feral ("wild") cats to continue living their lives, outdoors. These cats are fixed, vaccinated, ear-tipped, microchipped and released.

Note - The medical euthanasia of cats is higher during warmer months when uncontrolled breeding occurs. Newborn kittens who arrive cold, often with umbilical cords still attached and without their mothers, typically have a poor prognoses and will not survive. In these cases, humane euthanasia may be appropriate. VCAS is, however, proud to report that over 85% of all underage or underweight kittens do survive.

- Dog - Cat - Rabbit - Other Species **X** - Statistic not yet tracked.
