	3							
	211							

ADDITIONAL SHELTER STATISTICS

2,393 VOLUNTEER HOURS DONATED	178 GOING INTO FOSTER CARE	28 135 X 15	 	3,592 PET LICENSES PROCESSED	95.8% LIVE RELEASE RATE (LRR)	95.5% 95.9%	
3,895 FOSTER CARE HOURS DONATED	91 ANIMALS DIVERTED	51 29 7 4	 	767 CALLS RESPONDED TO BY AN ACO*	540 EXAMS	363 SURGERIES	764 VACCINATIONS

*ACO - Animal Control Officer

DIVERTED - Animals who we were able to help keep out of the shelter by providing help and offering resources to the owner. This program is also known as our Pet Retention Program.

HUMANE EUTHANASIA - Our Chief Veterinarian authorizes all euthanasia decisions for medical reasons. Euthanasia for behavior is authorized by shelter managers, supervisors and directors. All euthanasia decisions are made on a case-by-case basis.

TNR ("Trap Neuter Return") and our "Working Whiskers" programs allow feral ("wild") cats to continue living their lives, outdoors. These cats are fixed, vaccinated, ear-tipped, microchipped and released.

Note - The medical euthanasia of cats is higher during warmer months when uncontrolled breeding occurs. Newborn kittens who arrive cold, often with umbilical cords still attached and without their mothers, typically have a poor prognoses and will not survive. In these cases, humane euthanasia may be appropriate. VCAS is, however, proud to report that over 85% of all underage or underweight kittens do survive.

- Dog - Cat - Rabbit - Other Species **X** - Statistic not yet tracked.
